

These are suggestions for the placement of officials. The meet referee and the starter may choose to fill in for some of the positions. For the freestyle, less officials may be needed. For the 25 frees, the officials at the turn end may be able to assist with the correct swimmers in the correct heats even when a bullpen is being utilized. If there are not enough officials, eliminate the walk positions, only have one official at the turn end and one official at the block end. Do the best you can with what you have.
